

In the Health Technology career pathway, you will apply advanced health care concepts, processes and diagnostic procedures in a hands-on, technology-driven, clinical environment. While working in our hospital lab, focus will be given to medical terminology, anatomy, physiology, and infection control.

Curriculum Highlights:

Develop a professional work ethic, medical skills and patient/client care, and confidentiality.

Gain real-life experience working on:

- Anatomy, physiology, and medical terminology
- Nurse aid training program
- Infection control and sterile techniques
- Human Growth and Development
- Patient care skills and clinical procedures
- Working in an advanced care setting
- CPR/AED/First Aid
- Phlebotomy

Career Focus:

Qualified students will be prepared for immediate employment, such as a State Tested Nursing Assistant or Phlebotomist. With further education and certifications, you can become:

Respiratory Therapist	Phlebotomist
Radiology Technician	Medical Lab Technician
Surgery Technician	Registered Nurse
Occupational Therapist	Licensed Practical Nurse
Physical Therapist	Registered Dietician

“I came to DACC because I wanted to get a head start on college and my career. I want to be a Labor and Delivery Nurse and this program is giving me practical experience that gives me a feel for what it’s like to be in the field. I’ll already be a step ahead when I go to college because of the work I’m doing here.”

-Victoria Jenkins
Health Technology Student

The Delaware Area Career Center, in partnership with community, is an innovative model for developing lifelong learners, quality leaders, and critical thinkers for the dynamic and global environment.

www.DelawareAreaCC.org

This program is a 2-year college tech prep program that prepares students for medical and health-related careers that require post-secondary education.

Pre-requisites include being on track for graduation with at least 10 credits. We suggest that you complete Biology and Algebra I with a “C” or higher. Graduates earn certificates in First Aid, CPR, AED, and Nurse Assisting.

Additional Benefits:

- You will receive mentorship opportunities during your senior year.
- You may even have the certification to work as a nursing assistant in the field as you pursue your formal post-secondary education.
- Due to your real world experience and hands-on training, you will be a step ahead of other nursing program applicants.
- Our program includes strong partnerships with local health professionals and college credit agreements with several colleges.
